About Romp n’ Roll:

Romp n’ Roll breaks from traditional children’s enrichment centers with a whimsical, comprehensive approach, offering creative-style gym, art, music and “adventure” classes geared to children ages three months to six years – all under one roof. Classes such as “Aargh, Matey,” “Construction Junction,” “Princess Class,” “Superheroes,” and “Romp y Roll en Español” cater to, and nurture the creative, often outrageous imaginations of young children. Romp n’ Roll also offers unique birthday parties and summer camps. More than 1000 families visit the Richmond facilities every week.

There are 10 Romp n’ Roll locations across the country. Richmond locations include the Westpark Shopping Center on West Broad Street, the Virginia Center Marketplace, and Busy Street off of Courthouse Road. The Barnetts are currently looking to add a second Chesterfield location.
